## Chairman's Report

“My Fellow Republicans: as we close out the year 2023 and reflect on all that has happened within the world of politics, we must remember that Milwaukee County is one of the most important counties across the Nation. At the same time, people plan on setting and meeting their “New Year’s Resolution”... Our resolve is to win back the White House in 2024.

This will not be an easy task, and there will be many stressful days that will make you want to quit. This Republic’s fate is dependent on us to win this State back.

Now is the time for a grassroots Relational/Community Outreach Campaign.

This means door-knocking and Event Tabling all around the County.

We must not let any area within Milwaukee be left alone.

The Republican Party’s Nominee will have a very strange-looking coalition made up of disaffected Liberals, independents, Libertarians, and Republicans. We are going to need everyone on board for us to win. If you are planning on being involved, look for the upcoming County Caucus date, and when we are training for Operation Connecting Milwaukee.

I hope everyone enjoyed their Christmas and hope that you will be enjoying this New Year's Eve.

LET'S GO WIN IN 2024!

Attention all abled body Volunteers! This is a call to action to join our new initiative. “Operation Connecting Milwaukee” is our new door-knocking initiative to reach voters across the County. This will be a door-knocking experience like no other. By being a part of this team, you will be trained on the issues and policies that the Party is focusing on as well as training in how to interact with those who may have a negative view of the Party. You will be prepared to become representatives of the Republican Brand and be the eyes and ears in the field.

Another day, another dangerous trend line.

While police pursue criminals statewide, Milwaukee County is at the heart of this issue. It seems that the pandemic gave the county a brief rest before skyrocketing to nearly 2,000 pursuits a year--more than 5 per day.

The Colorado Supreme Court is taking away Americans' voice in our elections.

This brazen election interference should concern every American.

**Wisconsin Pays for Empty State Office Buildings While Staff Work From Home [WRN Voices]**

Many Americans across the political spectrum believe government simply wastes too much money. As a candidate for statewide office in Wisconsin last year, I certainly heard families' frustration with the way their hard-earned money is being wasted, particularly in state government. We had good reason to be frustrated then. We have even more reason to be frustrated with waste now. There are nearly 68,000 staff employed across often overlapping state agencies. What is worse is the fact the Evers Administration increasingly no longer requires the state's workforce to report physically to work.

**THIS MONTH IN HISTORY**

December 2, 1823 - President James Monroe introduced his "Monroe Doctrine" during his annual message to Congress, prohibiting any further colonization of the American continents by European powers, stating, "We should consider any attempt on their part to extend their system to any portion of this hemisphere as dangerous to our peace and safety..."

United States President Theodore Roosevelt dispatched 16 U.S. Navy battleships of the Atlantic Fleet on a worldwide voyage of circumnavigation from December 16th, 1907 to February 22nd, 1909. The hulls were painted white, the Navy's peacetime color scheme, and decorated with gilded scrollwork with a red, white, and blue banner on their bows. These ships later became to be know as the Great White Fleet

December 25-26, 1776 during the American Revolutionary War, was the first move in a surprise attack organized by General George Washington, the commander-in-chief of the Continental Army, against Hessian forces garrisoned at Trenton, who were German mercenaries hired by the British. After crossing the Delaware River, Washington and his troops successfully attacked the Hessian forces in the Battle of Trenton on the morning of December 26, 1776.

**THIS MONTH IN HISTORY CONTINUED...**

December 19, 1732 - Benjamin Franklin first published Poor Richard's Almanac containing weather predictions, humor, proverbs and epigrams, eventually selling nearly 10,000 copies per year.

December 16, 1773 - The Boston Tea Party occurred as colonial activists disguised as Mohawk Indians boarded British ships anchored in Boston Harbor and dumped 342 containers of expensive tea into the water.

December 17, 1777 - At Valley Forge in Pennsylvania, the Continental Army led by General George Washington settled in for the winter.

December 15, 1791 - The Bill of Rights (first 10 amendments to the U.S. Constitution) became effective following ratification by Virginia.

December 14, 1799 - George Washington died at Mount Vernon.

December 17, 1903 - After three years of experimentation, Orville and Wilbur Wright achieved the first powered, controlled airplane flights. They made four flights near Kitty Hawk, North Carolina, the longest lasting about a minute.

December 1, 1955 - The birth of the modern American civil rights movement occurred as Rosa Parks was arrested in Montgomery, Alabama, for refusing to give up her seat to a white man and move to the back section of a municipal bus. Her arrest resulted in a year-long boycott of the city bus system by African Americans and led to legal actions ending racial segregation on municipal buses throughout the South.
